RIG UL 723

This photo demonstrates the speed of opening of our UL certified product during product development.

Rapid Installation Group, INC (RIG) has been providing a wide range of professional interior protection/ dust and debris containment services during roofing replacements and other types of construction projects. RIG Inc's leadership team has worked in the national food and beverage, pharmaceutical, and governmental sectors.

Our interior protection installations are designed to protect facility equipment, product, and personnel, allowing operations to continue 24/7. RIG Inc's applications are installed by experienced and OSHA-certified crews. To learn more about us, please visit our website www.riginteriorprotection.com. We at RIG, Inc look forward to building a strong professional and long-term relationship with you

After becoming UL certified in early 2021, and in the summer of 2023, under Project ID PR464464, RIG, INC entered into an Approval program to examine and test RIG-135 and RIG-165 fire retardant plastic debris barrier systems with FM Approvals.

About RIG:

RIG was established in 2017 with over 50 years of combined management experience within the building and construction trades.

Under RIG's Dust and Debris Containment Division, RIG's owners are excited to continue working with its national and international customers and associated roofing companies to provide interior containment services nationwide.

RIG's interior installation services throughout its veteran field workforce focus on the following service elements:

1. Dust and Debris Containment
2. Temporary Ceilings and Walls
3. Netting
4. High Structure Cleaning

RIG's in-house, well trained veteran crews are fully OSHA and Aerial Lift Certified. RIG is specialized at fully accommodating the client's operations and meeting expectations. RIG accomplishes this goal with no impact on clients' daily business practices by working around their scheduling and production requirements.

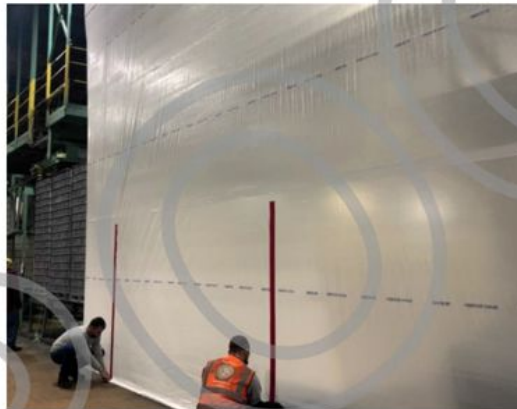

RIG's main office is in Northampton, Pennsylvania with three Satellite Offices located in New Jersey, Georgia and Florida. To learn more about us, please visit our website or contact one of RIG's team leaders to assist you.
