

RIG, INC is starting strong in 2024!

RIG, INC is providing its Customers & Roofing Clients with top quality & low risk. RIG, INC provides safety for people & protection for facilities & keeps production lines moving during construction.

Our RID-135 & RID-165 fire retardant plastic debris barrier systems passed all required testing at FM Approvals in 2023. The official FM Approvals report & certification should be processed early this year.

RIG, INC continues to meet all required industry standards including FM Standards 4652 & UL723s.

For more information about RIG, INC, and UL & FM fully tested products, please visit our website or stop by our booth (# 5451) at the International Roofing Expo 2024 in Las Vegas Convention Center between Feb 6th & Feb 8th.
